To use Rhino off campus, you will need to borrow a license.

1. **Make sure you are on-campus and are connected to LeopardSecure, or are plugged in using an Ethernet connection.**
2. Open Rhino
3. Type “CheckOutLicense” into the command prompt

```
Loading Rhino Render, version 1.50, Jul 17 2013, 01:03:09
Command: CheckOutLicense
```

4. After a few moments, a window will appear, as shown below:
5. Click the “Check Out” link shown in the highlighted box above.

6. After clicking, the window will update and should reflect what is shown below:

If you see this window, you have now successfully checked-out a Rhino license and you can use it off-campus.
